Saab at DSEI 2021

Saab will be exhibiting at the 2021 Defence Security and Equipment International (DSEI) exhibition, London, England, from 10-17 September.

Saab welcomes visitors to come to our stand (South Hall H7-110) to learn more about our range of world-leading systems that contribute to keeping people and society safe. Across land, sea and air, these systems provide the awareness and means to protect and defend whatever the threat.

Away from the stand, a compact, lightweight Giraffe 1X 3D radar will be located at the East outdoor display area, where it will provide a live demonstration of its capabilities from atop a Supacat Jackal vehicle. Visitors will be able to talk to Saab experts about its unique features and see for themselves the high quality situational awareness users can expect.

Dockside to the South Hall and located in the marina section will be the new Combat Boat 90 Next Generation. Visitors are welcome to visit it and learn more about how CB90 NG brings a multi-mission capability to its renowned role with amphibious forces.

There will be a dedicated CB90 NG **media briefing** open to registered journalists on Tuesday 14 Sept, 16:00 -16:45, with a repeat of the briefing held on Thursday 16 Sept, 13:00-13:45, as numbers are limited to nine attendees. The briefings will be held on-board the CB90, and will be from Saab experts and a Naval Systems Division representative from the Swedish procurement authority, FMV.
