Saab publishes its Annual and Sustainability Report 2020

Saab's annual and sustainability report for 2020 is as of today available on the Group's website at www.saab.com.

In the annual and sustainability report for 2020, more focus has been placed to showcase Saab's purpose and role in society, and how the company aims to create greater value for all its stakeholders. This will be done by executing on our strategy in combination with continued investments in R&D and innovation, portfolio excellence, accelerated presence in strategic markets and by driving an active sustainability agenda. The annual report includes business cases and proof-points on how we are executing on our growth journey.

"Saab is on an international expansion journey. Our aim is to become a truly global, multi-domestic company: a technology leader, with increased sales and profitability. However, for Saab, as for many others, most of 2020 was a dramatic year. Despite this, we achieved some important project milestones during the year. We also accelerated our international expansion and continued to optimise our product offering", said Micael Johansson, President and CEO.

The report also demonstrates Saab's commitment to sustainability, which is an integral part of the Group's strategy and serves as the basis for Saab's long-term development and growth.

A printed annual and sustainability report will be distributed to shareholders, who have requested it and can also be ordered on: <https://www.saab.com/investors>.

The Annual General Meeting of Saab will be held on 13 April, 2021.

This press release has been adjusted with respect to the reference to applicable law.
