Lithuania Joins Framework Agreement on Carl-Gustaf

Saab has signed a framework agreement with the Lithuanian Ministry of Defence for the Carl-Gustaf® M4 weapon and ammunition. A first order for ammunition with a value of approximately SEK 150 million was placed by the Lithuanian Defence Materiel Agency in connection with the signing of the framework agreement.

The signing means that the Lithuanian Armed Forces will join the same Carl-Gustaf framework agreement as Sweden, Estonia and Latvia.

“It’s a great milestone to have Sweden and all the Baltic countries in the same agreement for the Carl-Gustaf system. Now we look forward to delivering this ammunition and providing Lithuania with the fantastic Carl-Gustaf M4 system,” Görgen Johansson, head of Saab’s business area Dynamics.

Since the Carl-Gustaf M4 launch in 2014, Saab has signed contracts with fourteen different nations for the system. The wide range of ammunition provides extreme tactical flexibility, ready for any combat situation, delivering faster engagement, increased hit probability and greater effectiveness.

Lithuania has been a user of the Carl-Gustaf system since the mid-1990’s.
