Saab at Dubai Airshow 2023

Saab will be exhibiting at the Dubai Airshow, Dubai World Central, United Arab Emirates from 13-17 November. Come to stand #965 in the main exhibition hall to learn more about how Saab is making people and society safer.

Saab is displaying a range of advanced systems that provide operational advantage by giving users the capabilities to be better prepared in an uncertain world.

Come along to Saab's stand to learn more about:

- GlobalEye as the world's most advanced AEW&C solution that operates as strategic national asset in peace, crisis and conflict, with ground-breaking capabilities that can provide simultaneous air, maritime and ground surveillance in one single solution.
- DeployNet, a rapidly deployable and scalable 5G/LTE wireless network delivering speedy, reliable and secure voice and data communication. Designed and produced in the UAE, DeployNet was brought to market through co-operation with the UAE's Tawazun Council.
- The world-famous Giraffe multifunctional, multi-mission radars that create the time to act, with simultaneous capabilities including air surveillance, ground based air defence, drone detection and sense and warn.
- T-7, the most modern advanced pilot trainer jet for the next generation of combat pilots.
- Saab Integrated Digital Tower Suite for civil and military use and r-TWR Deployable; a deployable digital tower that provides high availability, mission-to-mission modularity and flexibility.
- Self-protection countermeasure systems to detect hostile weapon systems and incoming threats thereby allowing evasive measures to deny the opponent.

“Over the years, Saab's partnership in the UAE has transformed into a robust and enduring framework, encompassing localisation, Emiratisation, training, research and development, and more. Dubai Airshow presents an ideal opportunity to strengthen our existing partnerships and venture into new possibilities with influential and key stakeholders,” said Anna-Karin Rosen, Managing Director of Saab in the UAE.
