Saab signs GlobalEye support contract with UAE

Saab and the United Arab Emirates (UAE) Ministry of Defence have signed a contract and Saab has received an order regarding in-service support for the GlobalEye Airborne Early Warning and Control (AEW&C) solution. The order value is approximately USD 190 million with a three-year contract period that runs until 2026.

The contract includes maintenance and logistics support, as well as training services.

“This agreement solidifies Saab’s role in ensuring that GlobalEye remains mission-ready. We look forward to further strengthening our partnership with the UAE Air Force and Air Defence and providing long-term local support,” says Carl-Johan Bergholm, head of Saab’s business area Surveillance.

GlobalEye is an advanced multi-domain AEW&C solution with an array of active and passive sensors that provide long-range detection and identification of objects in the air, at sea and over land.

By providing real-time information to units in air forces, armies and navies, GlobalEye enables enhanced situational awareness of the surrounding areas and early detection of threats.
