Saab receives order from Sweden on Giraffe 4A radar systems

Saab has received an order from the Swedish Defence Materiel Administration (FMV) of Giraffe 4A radar systems with associated services to the Swedish Armed Forces. The order value is approximately SEK 1.4 billion with deliveries 2026-2027.

Giraffe 4A will further strengthen Sweden's ground-based air surveillance and offers a mobile modern sensor, enabling software-based updates.

"We are proud to continue to support the Swedish Armed Forces by an important piece of the puzzle in the new sensor system program and thereby Swedish national defence. Giraffe 4A strengthens Sweden's mid-range sensor capability and make for a long-term capability development, says Carl-Johan Bergholm, Head of Business Area Surveillance.

Giraffe 4A is a multi-functional radar, giving the user several different capabilities. By the ability to identify and track a high number of objects simultaneously the system is suitable for air and sea surveillance as well as military air traffic control.

Saab is a leading defence and security company with an enduring mission, to help nations keep their people and society safe. Empowered by its 25,000 talented people, Saab constantly pushes the boundaries of technology to create a safer and more sustainable world. Saab designs, manufactures and maintains advanced systems in aeronautics, weapons, command and control, sensors and underwater systems. Saab is headquartered in Sweden. It has major operations all over the world and is part of the domestic defence capability of several nations.
