Saab receives order for ground-based air defence from Sweden

Saab has received an order from the Swedish Defence Materiel Administration (FMV) for the mobile short-range air defence solution RBS 70 NG with missiles. The order value is approximately SEK 1.5 billion and deliveries are scheduled 2027-2028. The order was booked in Q2 2025.

The order also includes equipment which will enable the Swedish Armed Forces to integrate the system on a Mobile Short-Range Air Defence (MSHORAD) solution in the future.

"We are continuously contributing to strengthening the capabilities of the Swedish Armed Forces and Saab's air defence systems play a vital role in keeping Sweden's skies secure," says Görgen Johansson, head of Saab's business area Dynamics.

Saab's MSHORAD system with RBS 70 NG features an automatic target tracker and a built-in night sight and provides the user with capability to defeat threats including aircraft, drones and missiles from distances of up to nine kilometers.

Saab is a leading defence and security company with an enduring mission, to help nations keep their people and society safe. Empowered by its 25,000 talented people, Saab constantly pushes the boundaries of technology to create a safer and more sustainable world. Saab designs, manufactures and maintains advanced systems in aeronautics, weapons, command and control, sensors and underwater systems. Saab is headquartered in Sweden. It has major operations all over the world and is part of the domestic defence capability of several nations.
