

Press release 26 November 2025

Sweden and Saab selected for Poland's new submarines

The Swedish government's offer of Saab's A26 submarines to Poland has been selected by the Polish government to replace the current Kilo-class submarine. At this point, Saab has not signed any contract nor received any order.

The Swedish offer comprises advanced A26 submarines from Saab, equipped with the latest innovations and technologies. The proposal includes cooperation with the Polish industry and knowledge transfer, securing a strategic partnership between Poland and Sweden.

"We are honored to have been selected and look forward to the coming negotiations with the Armaments Agency in Poland. The Swedish offer, featuring submarines tailored for the Baltic Sea, is the right choice for the Polish people. It will significantly enhance the operational capability of the Polish Navy and benefit the Polish economy," said Micael Johansson, President and CEO of Saab.

Saab and the Swedish Defence Materiel Administration (FMV) will now follow the next steps in the procurement process together with Polish authorities.
