UTAAS is a modular, integrated sight and fire control system for the Combat Vehicle 90 (CV90), currently in service in Sweden, Norway, Switzerland, Finland, the Netherlands, Denmark, Estonia, and Ukraine, and has also been ordered by the Czech Republic and Slovakia.

"The increasing global demand for the CV90 underscores its proven capabilities and reliability on the battlefield. Our long-standing partnership with BAE Systems Hägglunds has enabled us to enhance our production capacity for the UTAAS, ensuring that we can meet the growing needs of our customers", says Carl-Johan Bergholm, head of Saab's business area Surveillance.

Saab is a leading defence and security company with an enduring mission, to help nations keep their people and society safe. Empowered by its 27,000 talented people, Saab constantly pushes the boundaries of technology to create a safer and more sustainable world. Saab designs, manufactures and maintains advanced systems in aeronautics, weapons, command and control, sensors and underwater systems. Saab is headquartered in Sweden. It has major operations all over the world and is part of the domestic defence capability of several nations.
