

Auditor's report

To the general meeting of the shareholders of Saab AB (publ), corporate identity number 556036-0793

REPORT ON THE ANNUAL ACCOUNTS AND CONSOLIDATED ACCOUNTS

Opinions

We have audited the annual accounts and consolidated accounts of Saab AB for the year 2021 except for the statutory sustainability report and the corporate governance statement on pages 50 to 79 and 82 to 91 respectively. The annual accounts and consolidated accounts of the company are included on pages 36 to 153 in this document.

In our opinion, the annual accounts have been prepared in accordance with the Annual Accounts Act and present fairly, in all material respects, the financial position of the parent company as of 31 December 2021 and its financial performance and cash flow for the year then ended in accordance with the Annual Accounts Act.

The consolidated accounts have been prepared in accordance with the Annual Accounts Act and present fairly, in all material respects, the financial position of the group as of 31 December 2021 and their financial performance and cash flow for the year then ended in accordance with International Financial Reporting Standards (IFRS), as adopted by the EU, and the Annual Accounts Act.

The statutory administration report is consistent with the other parts of the annual accounts and consolidated accounts. Our opinions do not include the statutory sustainability report and the corporate governance statement on pages 50 to 79 and 82 to 91 respectively.

We therefore recommend that the general meeting of shareholders adopts the income statement and balance sheet for the parent company and the income statement and statement of financial position for the group.

Our opinions in this report on the annual accounts and consolidated accounts are consistent with the content of the additional report that has been submitted to the parent company's audit committee in accordance with the Audit Regulation (537/2014) Article 11.

Basis for Opinions

We conducted our audit in accordance with International Standards on Auditing (ISA) and generally accepted auditing standards in Sweden. Our

responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of the parent company and the group in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements. This includes that, based on the best of my (our) knowledge and belief, no prohibited services referred to in the Audit Regulation (537/2014) Article 5.1 have been provided to the audited company or, where applicable, its parent company or its controlled companies within the EU.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

OUR AUDIT APPROACH

Audit approach and scope

We designed our audit by determining materiality and assessing the risks of material misstatement in the consolidated financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls and the specific circumstances in larger customer projects.

In order to design an appropriate audit, we have updated our understanding of how the operations within Saab are organised, of important systems and processes as well as the internal controls implemented to give the Board of Directors and management confidence that the financial reporting is of high precision. For this purpose we have performed interviews with senior

management at various levels in the group and leaders of group functions, as well as reviewed reports, policies, instructions and planning and steering documents. We have also had a regular dialogue with the internal audit and internal controls functions to share relevant information and to coordinate activities when and if deemed relevant.

A significant part of Saab's revenue and result is derived from long term customer contracts including substantial development and customization for specific customers, which are associated with technical and commercial risks. Revenue and income are in many projects recognised using percentage of completion, which as such are based on management's estimates and measurement of percentage of completion, estimated profit margin as well as total costs and risks. This requires a high level of project control and monitoring to be able to, at any given time confirm the assumptions and estimates for project cost and revenue to give a satisfying base for recognizing revenue and income. In many cases the customer contracts have a significant element of integration with the customer and sub-contractors why the financial outcome is not only dependent on Saab's own activities but other parties as well.

In our audit we have focused on the operations in the parent company Saab AB and the subsidiaries Saab Dynamics AB, Saab Kockums AB and Combitech AB. In addition entities in Australia, South Africa and the USA have been subject to review procedures. We have considered covid-19 and its impact in our audit and designed our audit procedures to meet new and/or changed risks in the audit. Overall, we have been able to carry out our audit, even though the pandemic has led to changes in working methods and increased use of digital tools for communication and collection of audit evidence.

Materiality

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance whether the financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered

material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall materiality for the consolidated financial statements as a whole. These, together with qualitative considerations, helped us to determine

Key audit matter

Long term customer contracts

Revenue and income are in many projects recognised over time using percentage of completion, which as such are based on management's estimates and measurement of percentage of completion, estimated profit margin as well as total costs and risks. If a project is expected to be in a loss position, the loss is recognised as soon as it can be determined.

Percentage of completion and the income recognised can be based on cost incurred, milestones reached, or units delivered.

The financial reporting risk in the financial reporting is that revenue and income recognised, not correctly reflect Saab's fulfilment of performance obligations in the long term customer contracts and that the risks in the contracts deviate from actual outcome, which can result in revenue being recognised at wrong margin. This in turn might lead to cut off errors in revenue and cost over the project's lifecycle.

Accounting for long term customer contracts also, besides revenue and cost of goods sold, affect balance sheet items such as receivables from customers, inventory and provision for loss contracts.

In the annual report risks related to long term contracts are described on page 47 and in the notes to the financial statements (note 2 and 4) the accounting principles are described in more detail.

the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Key audit matters

Key audit matters of the audit are those matters that, in our professional judgment, were of most significance in our audit of the annual accounts and

consolidated accounts of the current period. In the audit of Saab we have identified The matters below were addressed in the context of our audit of, and in forming our opinion thereon, the annual accounts and consolidated accounts as a whole, but we do not provide a separate opinion on these matters.

How our audit addressed the Key audit matter

Saab has implemented processes, methods and controls to account for and monitor the long term customer contracts from tender, through execution and completion. These processes include among other project organisation, documentation, financial reviews and reporting as well as guidance on application of the accounting principles. This is further described in the annual report on page 47.

In our audit we have evaluated the design of these processes, methods and controls and tested on a sample basis that they work as designed. In this testing we have focused on the following:

- Test of monitoring controls on business area, business unit of where applicable on product level.
- Test of transaction controls for accounting for cost incurred related to long term customer contracts for procurement to projects.
- Test that project reviews and documentation has been approved according to methods applied within Saab.

We have further selected a sample of long term customer contracts for substantive testing. Our sample is based on quantitative and qualitative factors where we have selected long term contracts that are material from contract value, revenue recognised or risk in residual cost to complete. Contracts for Gripen E Sweden, Gripen NG Brazil and Airborne surveillance United Arab Emirates, A26 submarines to Sweden and Squadron 2020 to Finland have been of specific interest in our audit.

For the selected contracts we have in detail obtained an understanding for the project

though, among other procedures, review of contract clauses, project plans, analysis of stage of completion and contract forecasts. Each quarter we review the projects together with the project leader, the project controller or similar. In these reviews we perform the following procedures focusing on whether significant risks are reasonably accounted for:

- We inspect management's assessment of the project execution and how this affects the financial reporting. This includes total contract value, level of completion, method for recognising stage of completion, cost incurred and estimated remaining cost.
- We reconcile management's assessment to underlying documentation and compare this with previous quarters.
- We reconcile financial information between reports and systems and recalculate calculations.

In these reviews we use our knowledge about Saab and how similar long term contracts have been treated to discuss and ask questions and challenge management's estimates and judgements. We also assess consistent application of accounting principles between contracts with similar circumstances. In this we also test items reported as work in progress. We test them from both quantitative and qualitative aspects and assess whether they are accounted for under Saab's accounting policies.

OTHER INFORMATION THAN THE ANNUAL ACCOUNTS AND CONSOLIDATED ACCOUNTS

This document also contains other information than the annual accounts and consolidated accounts and is found on pages 1 to 35 and 159 to 167 as well as the statutory sustainability report on page 50 to 79. The other information also consists of the remuneration report, which we have had access to prior to the date of this audit report. The Board of Directors and the Managing Director are responsible for this other information.

Our opinion on the annual accounts and consolidated accounts does not cover this other information and we do not express any form of assurance conclusion regarding this other information.

In connection with our audit of the annual accounts and consolidated accounts, our responsibility is to read the information identified above and consider whether the information is materially inconsistent with the annual accounts and consolidated accounts. In this procedure we also take into account our knowledge otherwise obtained in the audit and assess whether the information otherwise appears to be materially misstated.

If we, based on the work performed concerning this information, conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE BOARD OF DIRECTORS AND THE MANAGING DIRECTOR

The Board of Directors and the Managing Director are responsible for the preparation of the annual accounts and consolidated accounts and that they give a fair presentation in accordance with the Annual Accounts Act and, concerning the consolidated accounts, in accordance with IFRS as adopted by the EU. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of annual accounts and consolidated accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts and consolidated accounts, The Board of Directors and the Managing Director are responsible for the assessment of the company's and the group's ability to continue as a going concern. They disclose, as applicable, matters related to going concern and using the going concern basis of accounting. The going concern

basis of accounting is however not applied if the Board of Directors and the Managing Director intends to liquidate the company, to cease operations, or has no realistic alternative but to do so.

The Audit Committee shall, without prejudice to the Board of Director's responsibilities and tasks in general, among other things oversee the company's financial reporting process.

AUDITOR'S RESPONSIBILITY

Our objectives are to obtain reasonable assurance about whether the annual accounts and consolidated accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and generally accepted auditing standards in Sweden will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts and consolidated accounts.

A further description of our responsibility for the audit of the annual accounts and consolidated accounts is available on Revisorsinspektionen's website: www.revisorsinspektionen.se/revisornsansvar. This description is part of the auditor's report.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Opinions

In addition to our audit of the annual accounts and consolidated accounts, we have also audited the administration of the Board of Directors and the Managing Director of Saab AB for the year 2021 and the proposed appropriations of the company's profit or loss.

We recommend to the general meeting of shareholders that the profit be appropriated in accordance with the proposal in the statutory administration report and that the members of the Board of Directors and the Managing Director be discharged from liability for the financial year.

Basis for Opinions

We conducted the audit in accordance with generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of

the parent company and the group in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Responsibilities of the Board of Directors and the Managing Director

The Board of Directors is responsible for the proposal for appropriations of the company's profit or loss. At the proposal of a dividend, this includes an assessment of whether the dividend is justifiable considering the requirements which the company's and the group's type of operations, size and risks place on the size of the parent company's and the group's equity, consolidation requirements, liquidity and position in general.

The Board of Directors is responsible for the company's organisation and the administration of the company's affairs. This includes among other things continuous assessment of the company's and the group's financial situation and ensuring that the company's organisation is designed so that the accounting, management of assets and the company's financial affairs otherwise are controlled in a reassuring manner. The Managing Director shall manage the ongoing administration according to the Board of Directors' guidelines and instructions and among other matters take measures that are necessary to fulfil the company's accounting in accordance with law and handle the management of assets in a reassuring manner.

Auditor's responsibility

Our objective concerning the audit of the administration, and thereby our opinion about discharge from liability, is to obtain audit evidence to assess with a reasonable degree of assurance whether any member of the Board of Directors or the Managing Director in any material respect:

- has undertaken any action or been guilty of any omission which can give rise to liability to the company, or
- in any other way has acted in contravention of the Companies Act, the Annual Accounts Act or the Articles of Association.

Our objective concerning the audit of the proposed appropriations of the company's profit or loss, and thereby our opinion about this, is to assess with reasonable degree of assurance whether

the proposal is in accordance with the Companies Act.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with generally accepted auditing standards in Sweden will always detect actions or omissions that can give rise to liability to the company, or that the proposed appropriations of the company's profit or loss are not in accordance with the Companies Act.

A further description of our responsibility for the audit of the administration is available on Revisorsinspektionen's website: www.revisorsinspektionen.se/revisornsansvar. This description is part of the auditor's report.

THE AUDITOR'S EXAMINATION OF THE ESEF REPORT

Opinions

In addition to our audit of the annual accounts and consolidated accounts, we have also examined that the Board of Directors and the Managing Director have prepared the annual accounts and consolidated accounts in a format that enables uniform electronic reporting (the Esef report) pursuant to Chapter 16, Section 4(a) of the Swedish Securities Market Act (2007:528) for ABC AB (publ) for the financial year 2021.

Our examination and our opinion relate only to the statutory requirements.

In our opinion, the Esef report #checksum has been prepared in a format that, in all material respects, enables uniform electronic reporting.

Basis for Opinions

We have performed the examination in accordance with FAR's recommendation RevR 18 Examination of the Esef report. Our responsibility under this recommendation is described in more detail in the Auditors' responsibility section. We are independent of Saab AB in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Director's and the Managing Director

The Board of Directors and the Managing Director are responsible for ensuring that the Esef report has been prepared in accordance with the Chapter 16, Section 4(a) of the Swedish Securities Market Act (2007:528), and for such internal control that the Board

of Directors and the Managing Director determine is necessary to prepare the Esef report without material misstatements, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to form an opinion with reasonable assurance whether the Esef report is in all material respects prepared in a format that meets the requirements of Chapter 16, Section 4(a) of the Swedish Securities Market Act (2007:528), based on the procedures performed.

RevR 18 requires us to plan and execute procedures to achieve reasonable assurance that the Esef report is prepared in a format that meets these requirements.

Reasonable assurance is a high level of assurance, but it is not a guarantee that an engagement carried out according to RevR 18 and generally accepted auditing standards in Sweden will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the ESEF report.

The audit firm applies ISQC 1 Quality Control for Firms that Perform Audits and Reviews of Financial Statements, and Other Assurance and Related Services Engagements and accordingly maintains a comprehensive system of quality control, including documented policies and procedures regarding compliance with professional ethical requirements, professional standards and legal and regulatory requirements.

The reasonable assurance engagement involves obtaining evidence, through various procedures, that the Esef report has been prepared in a format that enables uniform electronic reporting of the annual accounts. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement in the report, whether due to fraud or error. In carrying out this risk assessment, and in order to design procedures that are appropriate in the circumstances, the auditor considers those elements of internal control that are relevant to the preparation of the Esef report by the Board of Directors and the Managing Director, but not for the purpose of expressing an opinion on the effectiveness of those internal controls. The reasonable assurance engagement also includes an evaluation of the appropriateness and reasonableness of assumptions made by the Board of

Directors and the Managing Director. The procedures mainly include a technical validation of the Esef report, i.e. if the file containing the Esef report meets the technical specification set out in the Commission's Delegated Regulation (EU) 2019/815 and a reconciliation of the Esef report with the audited annual accounts and consolidated accounts.

Furthermore, the procedures also include an assessment of whether the Esef report has been marked with iXBRL which enables a fair and complete machine-readable version of the consolidated statement of financial performance, statement of financial position, statement of changes in equity and the statement of cash flow.

The auditor's examination of the corporate governance statement

The Board of Directors is responsible for the corporate governance statement on pages 82 to 91 has been prepared in accordance with the Annual Accounts Act.

Our examination of the corporate governance statement is conducted in accordance with FAR's auditing standard RevR 16 The auditor's examination of the corporate governance statement. This means that our examination of the corporate governance statement is different and substantially less in scope than an audit conducted in accordance with International Standards on Auditing and generally accepted auditing standards in Sweden. We believe that the examination has provided us with sufficient basis for our opinions.

A corporate governance statement has been prepared. Disclosures in accordance with chapter 6 section 6 the second paragraph points 2-6 of the Annual Accounts Act and chapter 7 section 31 the second paragraph the same law are consistent with the other parts of the annual accounts and consolidated accounts and are in accordance with the Annual Accounts Act.

PricewaterhouseCoopers AB, Stockholm, was appointed auditor of Saab AB (publ)'s by the general meeting of the shareholders on the 13 April 2021 and has been the company's auditor since the 7 April 2011.
