

SAAB

FFV ORDNANCE

84 MM MT 756

Penetrating force

Highly effective when incapacitating enemies in built-up areas and fortifications

The MT 756 tandem charge system allows for the Carl-Gustaf® M4 to penetrate walls and light armour to devastating effect. The precursor charge creates a hole large enough for the main charge to pass through and detonate behind the obstacle thanks to its delay function.

Loading the MT 756 round

URBAN WARFARE

The MT 756 is very effective in all kinds of urban warfare. The tandem charge enables a strategic and secure action for the units.

ANTI-ARMOUR

The MT 756 round is also capable of defeating light armoured vehicles.

Effect in light armoured vehicle

Main charge behind wall detonation

BEHIND-WALL EFFECT

The main charge detonates behind the wall for devastating effect.

84 mm MT 756
