

**SAAB**

**FFV ORDNANCE**

**CARL-GUSTAF® M4**

## Smart just got smarter

Enhancing your abilities to  
react to any tactical situation

The Carl-Gustaf® M4 is a man-portable multi-role weapon system that provides high tactical flexibility through its wide range of ammunition types. Saab's thinking edge has enabled us to build on almost 70 years of heritage and technological development to offer a system with innovation at its core.

## INTELLIGENT

As technologies evolve, weaponry needs to keep pace and offer cutting-edge capabilities. Programmable ammo is just one innovation that is set to revolutionise the battlefield for dismounted infantry.

Built with future requirements in mind, the Carl-Gustaf® M4 is compatible with intelligent sighting systems and prepared for programmable ammo, ensuring your forces have advanced technology at their fingertips.

## FLEXIBLE

Today's dismounted infantry face a broader range of battlefield challenges than ever before. Having a single weapon for all situations increases their tactical flexibility and reduces the amount of equipment that they carry.

The M4 enables soldiers to deal with any tactical situation – from neutralising armoured tanks or enemy troops in defilade, to clearing obstacles and engaging enemies in buildings.

## LIGHTWEIGHT

On the modern battlefield, speed can mean the difference between life and death for dismounted infantry. Operational success depends upon soldiers that can react quickly and effectively in any combat situation.

The Carl-Gustaf® M4 multi-role weapon system won't slow you down. Building upon the success of its predecessor, it offers an even shorter length and a weight of less than seven kilos – helping your troops remain agile.

## Product specifications

### Ammo types

- Anti-armour
  - 84 mm HEAT 751
  - 84 mm HEAT 551 / 551C RS
  - 84 mm HEAT 655CS
- Multi-role/Anti-structure
  - 84 mm HEDP 502 / 502 RS
  - 84 mm MT 756
  - 84 mm ASM 509
- Anti-personnel
  - 84 mm HE 441D / 441DR
  - 84 mm ADM 401
- Support
  - 84 mm SMOKE 469C
  - 84 mm ILLUM 545C

### Training/sub-calibre ammo

- Sub-calibre trainers
  - 20 mm sub-calibre
  - 7.62 mm sub-calibre 553B
- Full-calibre practice rounds
  - 84 mm TP 552
  - 84 mm TPT 141

### Dimensions and weight

- Length: 1 m
- Weight: 7 kg
- Container (packed, with accessories): ~22 kg

### Training options

- Full-calibre practice rounds
- Sub-calibre trainers
- BT simulation

### Sighting options

- Open sight
- Red dot sight
- Telescopic sight
- Intelligent sight
