

SEAFUTURE 2025

Invitation

29 Sept – 2 Oct | **Hall C** | **Stand C-05**

In today's complex world, Saab's thinking edge provides the innovative and advanced technical solutions for the modern environment, to secure your operations. Saab has profound experience of developing highly products and systems for the naval domain. On the surface and below. The product portfolio gives our customers capabilities for reconnaissance, surface combat, anti-submarine warfare, seabed operations, mine countermeasure or patrol missions. Versatility, modularity and availability are key words for all products.

“Join Saab at SEAFUTURE 2025 in La Spezia, where we will present a range of cutting-edge solutions and technologies for the naval domain, driving the future of defence and security.”
