

AOC EUROPE 2025

# Invitation

6 – 8 May

Roma Convention Center | Italy

Stand  
D03

## Outsmarting threats

As a pioneer in Electronic Warfare, Saab's philosophy has always been to invest in innovative technologies to help our customers detect, deceive and counter threats in the smartest possible ways. This way of thinking has resulted in world-leading and often game-changing active and passive sensors in every domain. Today, we integrate AI into our EW solutions, enhancing performance, adaptability and precision, while continuously redefining what an EW system can achieve.

Saab would like to welcome you to the Saab stand at AOC Europe, where you can learn more about our innovative electronic warfare solutions. All with the ability to outsmart threats and strengthen your defensive capabilities in every domain.

**We look forward to welcoming you.**
