Saab at IMDEX Asia 2025

Saab is set to showcase its latest advancements in naval and maritime defence at IMDEX Asia 2025, held at the Changi Exhibition Centre, Singapore 6–8 May. As a trusted partner in the Asia-Pacific region for over five decades, Saab continues to drive innovation in maritime security, providing cutting-edge solutions to safeguard people and society.

Under the theme “Keeping People and Society Safe”, Saab will highlight its advanced capabilities, including naval platforms, surveillance systems, training solutions and underwater technologies. IMDEX Asia 2025 presents a key opportunity to engage with industry leaders, government representatives, and defence partners from across the region.

“Our partnership with Singapore reflects our deep commitment to delivering innovative technologies and solutions, which enhance naval capabilities and readiness,” says Chun-Chau Chew, Saab’s country Head in Singapore. “With evolving maritime threats, Saab continues to focus on delivering solutions that ensure operational superiority and resilience. IMDEX Asia 2025 underscores Saab’s long-standing commitment to Singapore and the broader Asia-Pacific region. The event provides an opportunity to strengthen relationships with key stakeholders and showcase Saab’s dedication to providing cutting-edge, mission-critical solutions for maritime defence.”

Focusing on next-generation maritime capabilities, Saab’s showcase will feature a range of solutions designed to enhance operational effectiveness and survivability in modern naval operations:

- **Multi-Role Combat Vessel (MRCV) Superstructure** – A composite superstructure offering a lightweight, non-corroding alternative to traditional materials, reducing structural weight by 50%. Saab is supplying six superstructures to the Republic of Singapore Navy under contract with the Defence Science & Technology Agency.

- **Sea Giraffe 1X** – A compact high-performance 3D surveillance radar designed for naval platforms, offering exceptional situational awareness, CUAS capabilities, and electronic counter-countermeasures (ECCM). Live demonstrations on the Giraffe 1X Compact Radar Module will be conducted during the show.
- **Sirius Compact R-ESM** – A modular passive electronic warfare (EW) system providing silent detection, classification, and prioritisation of radar and datalink emissions.
- **Maritime Live Training Solutions** – Saab's GAMER Suite, including Manpack 300 (Exercise Control, Communication) and Compact Ballistic Laser, delivers the world leading high fidelity training solution for Maritime Force Elements.
- **Saab Lightweight Torpedo (SLWT)** – A state-of-the-art, wire-guided, anti-submarine warfare torpedo capable of operating in shallow and deep waters, and varying hydroacoustic conditions.

Saab will be hosting live demonstrations and expert briefings at its booth throughout IMDEX Asia 2025. Media representatives are invited to meet with Saab spokespersons to gain insights into the company's latest innovations and regional strategy.

So, join us at Saab's stand to learn how Saab is helping to keep people and society safe. Hall A stand M05.

Saab is a leading defence and security company with an enduring mission, to help nations keep their people and society safe. Empowered by its 25,000 talented people, Saab constantly pushes the boundaries of technology to create a safer and more sustainable world.
