

SAAB

ADVISORY AND CONSULTANCY SERVICES

Saab offers a vast array of advisory and consultancy services within the field of Technical Information to help you get cost-efficient results and avoid common pitfalls.

Our Subject Matter Experts provide assistance in every phase: from development of the concept and set up of the project to the design of the Business Rules, ensuring efficiency and consistency throughout your work.

Furthermore, we offer our expertise in industry specifications to support implementation and compliance, and to ensure increased efficiency both from a technical and financial perspective.

Saab 's extensive experience encompasses civil and military projects within the aerospace, land and naval domains.
