

CONFLICT MINERALS POLICY

Saab is committed to high standards of business ethics and sustainability and we expect our suppliers to take the same ethical, social and environmental responsibility we do. Managing our obligations in relation to Conflict Minerals is a part of this commitment.

We are working towards ensuring that our products do not contain Conflict Minerals that have been sourced from regions that support or fund conflicts.

This will be achieved through:

- identifying which Saab products are impacted and targeting our efforts accordingly
- not buying products and materials containing Conflict Minerals directly from Conflict Regions
- engaging with our customers regarding their disclosure obligations
- asking our suppliers to work towards ensuring that any Conflict Minerals contained in the products and materials supplied to Saab do not originate from Conflict Regions (Conflict-free sourcing)
- transparent Supply Chain with transparent purchasing terms and conditions.

Micael Johansson
President and CEO, Saab AB

Saab serves the global market with world-leading products, services and solutions within military defence and civil security. Saab has operations and employees on all continents around the world. Through innovative, collaborative and pragmatic thinking, Saab develops, adopts and improves new technology to meet customers' changing needs.
